Mustafa Sohail

mustufasohail7@gmail.com +92 317 1144882 Portfolio Mustafa Sohail Mustafasohail7

Academic Qualification

Undergraduate, Habib University University **2020 - 2024**

- Computer Engineering Major
- HU-TOPS Scholar (100% Scholarship)

Intermediate, Aga Khan Higher Secondary School **2018 - 2020**

- Distinction Award for Highest Score in Mathematics

Work Experience

K-Electric **Jul 2024 - Present**

Assistant Manager - Cybersecurity

- Performed threat hunting, compromise assessments, cyber drills, and secure configuration assessments to identify indicators of compromise, validate detection capabilities, and uncover gaps in organizational defensive posture.
- Mapped security controls, detection capabilities, and adversary behaviors against the MITRE ATT&CK framework to identify coverage gaps, while triaging and investigating security alerts to improve detection and response effectiveness.
- Assessed and hardened the security architecture of enterprise technologies including EDR, NDR, SIEM, PAM, VMware, Proxy, and EMS, strengthening deployed security controls and improving the organization's overall defensive posture.
- Conducted Red Team, Purple Team, and Breach & Attack Simulation exercises to emulate adversary techniques, validate defensive controls, and identify detection gaps across Web Application Firewall, Next Generation Firewall, and Microsoft Entra ID environments.
- Designed and delivered two in-house security platforms: a Security Assessment Automation Platform integrating threat intelligence, dynamic analysis, and AI analysis, and an Operational Technology Vulnerability Management platform automating security assessment and remediation workflows, significantly reducing manual effort.

XovoTech **Jun 2023 - Dec 2023**

Junior React Developer

- Contributed to the development and deployment of 3 dynamic React projects, delivering responsive, production-ready applications with multiple design and functionality variants.
- Collaborated in a 6-member team to gather requirements and deliver tailored solutions, ensuring stakeholder needs were met while maintaining high-quality design and performance.

Habib University

Research Student **Jun 2022 - Aug 2022**

- Supported faculty research investigating renewable energy integration for a flowmeter device through literature review, technical analysis, and presentation of research findings.
- Developed simulation models in Simulink and performed MATLAB based data analysis, comparing simulation and experimental results to evaluate project feasibility.

Certifications & Achievements

Certifications

- Certified Ethical Hacker (CEH) - EC-Council, *Aug 2026*
- Junior Penetration Tester (eJPT) - INE, *Sep 2025*
- Junior Cybersecurity Analyst Career Path - Cisco Networking Academy *Oct 2024*
- Certified in Cybersecurity (CC) - ISC², *Nov 2024*

Achievements

- Finalist, Ignite National Cybersecurity Hackathon, *2024*
- Top 1% Global - TryHackMe
- Top 20% - HackTheBox Sherlock Hackathon *2025*

Technical Skills

Cybersecurity	Application Security, VAPT, DAST, SAST, Web, Mobile, API & LLM Security, Secure SDLC, Secure Code Review, Red Teaming, Purple Teaming, Breach & Attack Simulation, Threat Hunting, Vulnerability Management, Attack Surface Management
Frameworks & Tools	MITRE ATT&CK, OWASP, NIST, SANS VMMM, Burp Suite, Wazuh, Atomic Red Team, Wireshark, WAF, NGFW, EDR, NDR, SIEM, Microsoft Entra ID
Development & Platforms	Python, C++, JavaScript, Git, CI/CD, Linux, VMware
